Tamera Leighton, Director
Del Norte Local Transportation Commission
1301 B Northcrest Dr., #16
Crescent City, CA 95531

Dear Ms. Leighton,

The Area 1 Agency on Aging Advisory Council has been asked by representatives of senior citizens in Del Norte County to comment on Last Chance Grade concerns. It is our role to assess and help address the needs of the elder community in both Humboldt and Del Norte counties.

As you know, Highway 101 is vital to all Del Norte citizens for many reasons. What may be particular for the elders, however, is that this route is literally a life line to critical health care treatments only available in Eureka like kidney dialysis and cancer chemotherapies. All oxygen and medical supplies come for Eureka and further south along Highway 101.

Seniors are concerned that the Last Chance Grade is disintegrating to the point that temporary shoring up of the road is no longer an option. After examining the 2000 "Special Report 184: Landslides in the 101 Corridor Between Wilson Creek and Crescent City" we would have to agree.

It is not clear from the CalTrans press release what the time frame is for completing their engineering feasibility study but we believe moving forward with plans for by-passes or alternative routes must be part of this planning process. The prospect of heavy rains or a strong earthquake in the near future that would take out the two major slippage points is much more likely than that there is some new technology that will allow another fix that will hold the road.

The disruption and consequences of losing this vital life line are dire for elder people. The road is already a distance and endurance challenge. What alternate route would you expect them to drive in the event of road failure?

Ms. Leighton

Please speak up for Del Norte citizens in requiring that CalTrans begin creating a by-pass or similar viable alternate routes now. We will gladly support them in whatever it takes to get the financial allocations and funding needed to make this come to be.

Thank you for your consideration and for your service,

Bonnie MacGregor
Advisory Council President
